Student Work Experience Evaluation Form

Engineering students at Macquarie University must complete a minimum of 12 weeks of professional work experience at an industry organization before their Bachelor of Engineering degree can be awarded. This is a degree accreditation requirement from the Institute of Engineers Australia.

The academic assessment of the professional work experience is carried out by the academic unit based on the report and the log book submitted by the student. The evaluation questions below are also taken into consideration for the assessment and the evaluation form acts as a certification by the representatives from the industry organization for the student’s work experience.

<table>
<thead>
<tr>
<th>Use of engineering techniques, skills and tools</th>
<th>Demonstrated awareness of OHS issues</th>
<th>Demonstrated professional conduct</th>
</tr>
</thead>
<tbody>
<tr>
<td>Satisfactory? (Yes/No)</td>
<td>(Yes/No)</td>
<td>(Yes/No)</td>
</tr>
</tbody>
</table>

Student’s Name:

Period of Work Experience: From: / / To: / /

Number of Weeks:

Organization Name and Address:

Organization Representative’s Name:

Organization Representative’s Email Address:

Organization Representative’s Signature: Date: / /

Please provide the completed form to the Student named above. The Student will then submit the form to the Academic Coordinator at Macquarie University.
